

How well do you know your elevator portfolio?

Solucore is here to help. We provide advanced solutions that help building owners succeed in improving reliability, communication and long term planning for their vertical transportation systems.

Who We Are

At Solucore we like to stay ahead of the curve. We apply the latest technology with industry knowledge & experience to assist property managers in streamlining their elevator maintenance programs.

Our software, Evolve, empowers you to access equipment performance at your convenience. Evolve will help to reduce callbacks, minimize liability, assist with contractor invoicing, monitor missed maintenance and so much more.

Why Choose Us

Deep Industry Experience

With the strength of our combined industry experience, Solucore is committed to leading the industry in transparency of equipment data.

Consulting Expertise

Providing elevator & escalator solutions, safety and peace of mind. Its our core strength.

Rapid Value Creation

We are committed to providing innovative solutions that will help enhance equipment reliability, improve maintenance completion and manage costs.
